

Dylan - \$4,500 for a Stair Lift.

"As a single mom, I cannot safely carry Dylan up the stairs any more."

Dylan was diagnosed with MECP2 Duplication Syndrome at 10 months old. He started walking when he was 3. He recently started having seizures and can no longer walk. He is in great need of a stair lift since his room is on the second floor and, as a single mom, I cannot safely make multiple trips up and down stairs with him.

We hope the stair lift will improve his way of life and allow him to get back to school and music class.

To donate (in any amount!), go to the [FOCUS website](#) OR send a check to FOCUS, 3825 Presidential Pkwy, #103, Atlanta, GA 30340 (we love checks, no fees!)

Be sure to write "Fund A Need" in the Comments – and feel free to include encouragement to Dylan and to his mom.

For questions about Fund A Need, please contact Lucy Cusick at lucy@focus-ga.org
